Dear Jim,

I just want to let you know how much we appreciate the great work you, Jon and your personnel are doing for us. Your ability to do whatever projects we throw at you quickly and accurately has saved us a great deal of grief and aggravation. Your personnel do their work intelligently and pay attention to every detail. They do a great job in adhering to the requirements of our customers thus enhancing our reputation in the industry. The "can do" attitude of your staff is refreshing. Also, your accurate inventory records allow our sales staff to sell with confidence, knowing that every carton ordered will be shipped.

On a personal level, Jim, I have never dealt with more honest and sincere individuals as you and Jon. It's a pleasure dealing with such hard-working individuals that will never let us down. We are looking forward to many more years of success together.

Best Regards,

Dear Jim,

I just wanted to take out a minute to drop you a line to express our appreciation for the manner in which your organization has been servicing our account.

I know we saddled you fellows with an unorganized and ancient set of styles and quantities. Dealing with a company's dead stock is not the most glamorous of opportunities. Yet, your people went out of their way to ensure that our product would be set up in a logical and well thought out manner. You have created a controlled situation where there was once chaos.

More important is the relationship I think we have developed together. The more I speak with you and Jon, the more I am impressed with your 'bedside manners'. Both you and Jon take a can do approach combined with a positive and pleasant attitude. You have earned my trust - no small feat in today's rough and tumble business environment. Additionally, in the year that we have dealt with your company, everyone in our office has found that each and every employee at DCG treats us in a professional and courteous manner. No doubt this reflects on the policies and actions of upper management.

I look forward to doing business with you in the future.

Sincerely,

David Kramer

MEMORANDUM

February 3, 2006

To Jim, Jon and Joan (and the tremendous staff):

I just want to thank all of you for your continued outstanding performance. Your innovative and creative approach to problem solving has benefited us greatly. What I appreciate most is that when I give you a giant mess and ask you to clean it up, you always come up with a great plan and solve the problem promptly and efficiently. You can only imagine how much peace of mind this gives me. It also frees my time to focus on other urgencies. I always know that my domestic programs fulfilled from DCG will be done accurately, professionally and timely.

Before we started using you guys, we were extremely handicapped in our ability to service the west coast. However, for the past 5 years, we have grown our sales out west every year and DCG has made it all possible. I know our programs are difficult to execute and I am afraid that most other 3PLs would never even attempt to handle our pottery and chimineas. However, you ambitiously took the challenge and have established terrific procedures to make the programs run smoothly and flawlessly thereby creating for Well Traveled a tremendous competitive advantage.

Thank you

Jim:

I just wanted to take this opportunity to let you know that the staff and management of your company has done an outstanding job in servicing the fulfillment needs of my business. It is refreshing to work with people who actually care about the customer and literally bend over backwards to meet the demands of the customer. Recently I have had some very tight deadlines to meet that could not have been met without the efforts demonstrated by your staff to get the job done. They all have exceeded my expectations and that is something that has not gone unnoticed.

Jim, I admire the way that you and Jon strive to exceed the highest expectations of the customer and are prepared to deal with the challenges of the unknown. I am sure that there are many others that work for you that I am unaware of but there efforts put forth are very much appreciated as well.

Congratulations on executing your strategy that should be the envy of your competition. You are definitely on top of your game.

Best regards,

PS. The invitation for golf at the Citrus still remains open for both you and Jon when the heat subsides somewhat. My only requirement is that I will need more strokes to have a chance to compete with you long ball hitters.
